### SWEDISH THERAPY

The most common and best-known type of massage in the West, and the foundation for sports massage, deep tissue massage, aromatherapy massage, and other popular Western-style massages.

### AROMA THERAPY

the practice of using the natural oils extracted from flowers, bark, stems, leaves, roots or other parts of a plant to enhance psychological and physical well-being.

### THAI THERAPY

Thai massage is also called Thai yoga massage, because the therapist uses his or her hands, knees, legs, and feet to move you into a series of yoga-like stretches.

### HEAD THERAPY

Its roots deep within Indian culture. It was originally practiced by Indian women as part of daily family grooming. A great way to help promote relaxation using reflexology points on the skull.

### BACK, NECK & SHOULDER

The treatment is designed to relax and ease tension in the areas of the body where muscle problems most often occur.

### FOOT REFLEXOLOGY

Foot reflexology isn't just a foot massage! While a foot massage helps relieve tired feet, it doesn't go beyond relaxation. Foot reflexology, on the other hand, isn't focused on relaxation, but in medical healing.
